Introduction to Europeana

James Morley
Creative Industries Community Developer
james.morley@europeana.eu

CC BY SA

What we do

→ **Aggregate** – We are building the open, trusted source for European cultural content

→ **Facilitate** – We support the cultural heritage sector through knowledge transfer, innovation and advocacy

→ **Distribute** – We make heritage available to people wherever they are, whenever they want it

→ **Engage** – We cultivate new ways for people to participate in their cultural heritage

What we do

→ **Infrastructure** – We are developing the Europeana DSI (Digital Service Infrastructure)

→ **Technology** – We do R&D, write code, build data models and create innovative tools

→ **Open Approach** – We openly share what we do; we encourage people to use our products and build upon them

→ **Collaboration** – We work with others and build partnerships to share and to learn

VALUES

‘We transform the world with Culture!’
