ICT-24 NGI OPEN INTERNET CALLS

The Open Calls will run starting early 2019 – more to come

- **Privacy and trust enhancing technologies:** to help users achieve greater control when sharing their personal data
- **Decentralized data governance:** explore new distributed data management systems based on P2P and Blockchains, paying attention to ethical, legal and privacy issues
- **Discovery and identification technologies:** to access heterogeneous data sources, services, objects and sensors, devices, content, etc.

A hand is shown holding a small globe of the Earth. Overlaid on the globe is a network of white dots connected by thin white lines, representing a global network or data flow. The background is a light, neutral color.
