

Get to know Fed4FIRE+

Free and open access | Porto Roadshow 18/02/2020

Test-drive Europe's largest set of experimentation facilities!

Fed4FIRE+ is a project under the European Union's Programme Horizon 2020, offering the largest federation worldwide of Next Generation Internet (NGI) testbeds.

Access to facilities is free and open, supporting a wide variety of research and innovation communities and initiatives in Europe, including big data, cloud computing, wireless networks, wired networks, IoT, 5G and more.

We want you! To develop, optimize, test and stress-test your product - all for free in a quasi-realistic wired or wireless environment.
