Project Overview

Details

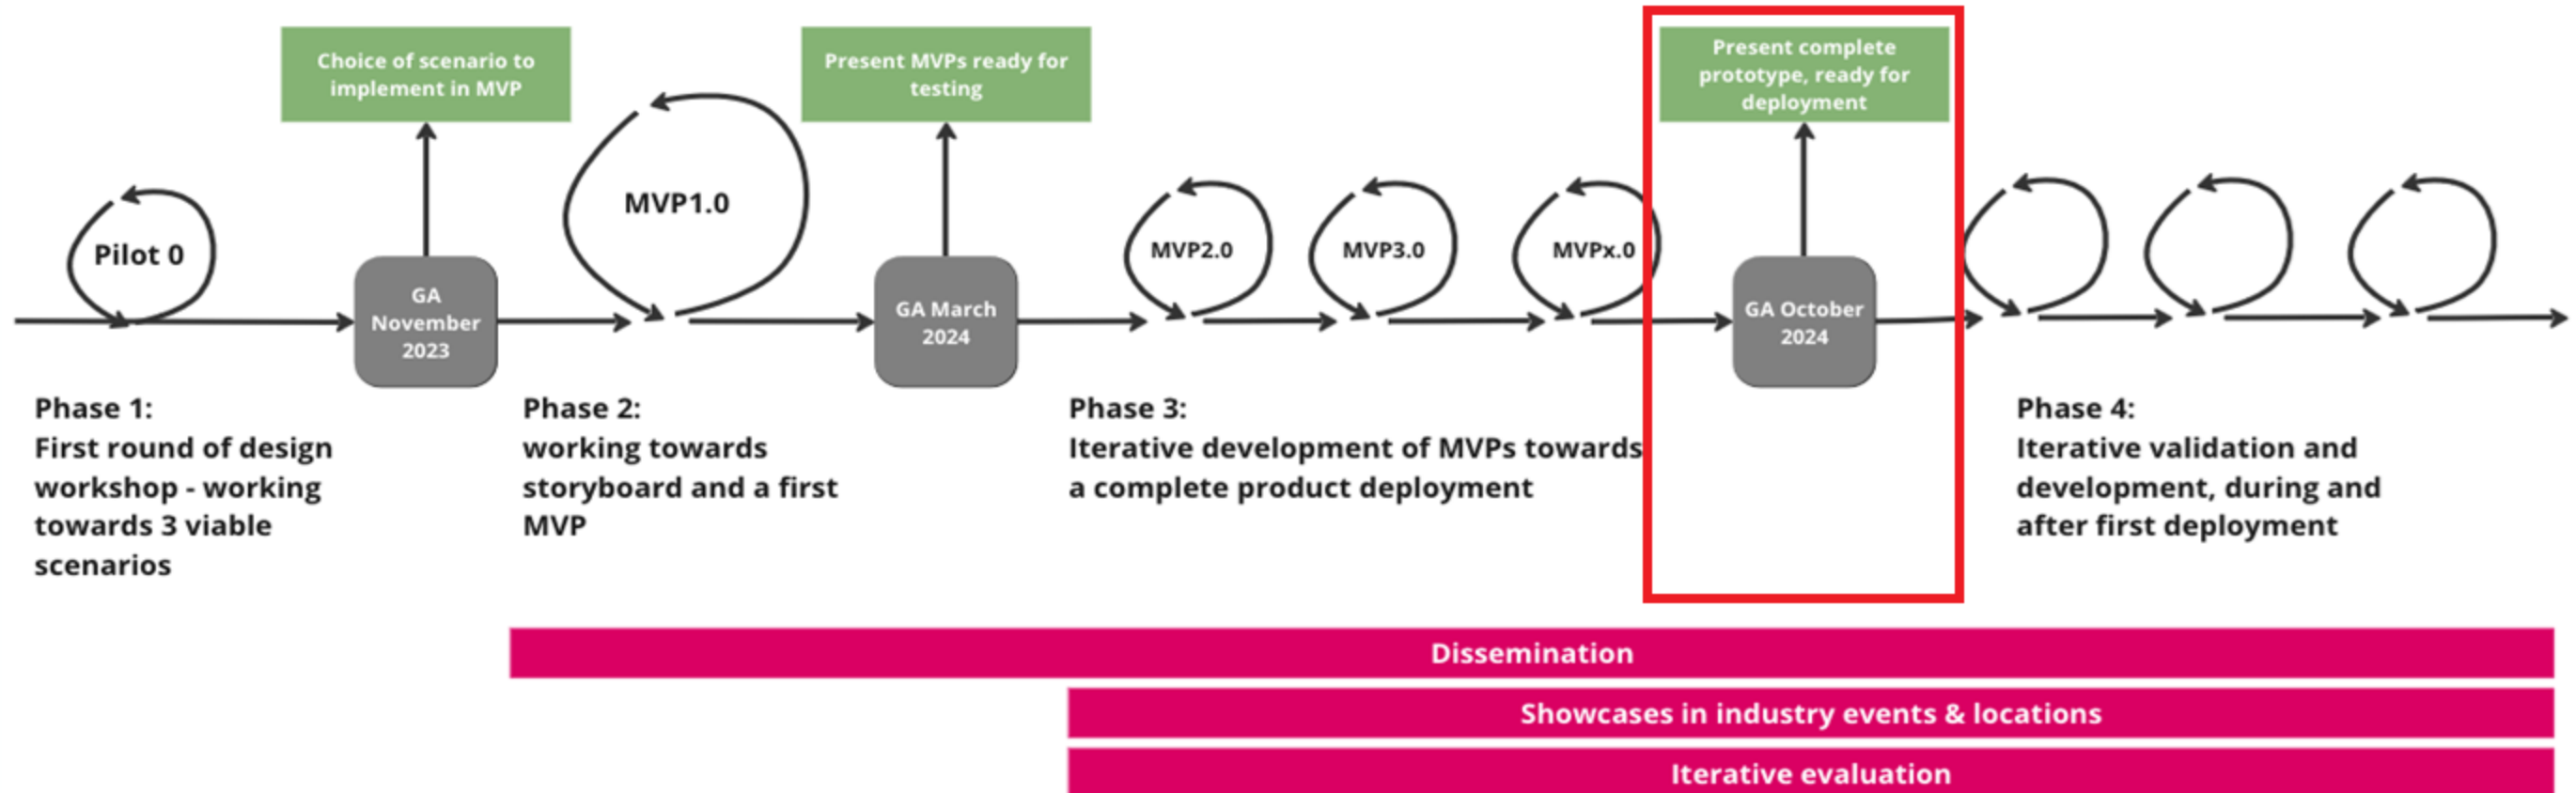

- Innovation for Media, incl. XR
 - HORIZON-CL4-2021-HUMAN-01-06
- Key priority
 - Advanced solutions for the **creation, distribution and consumption** of new media products, including **XR**

TRANSMIXR objectives

- **01:**holistic **workflows, formats** and practices that enable the creation, delivery and consumption ... immersive storytelling experiences.
- **02:** **understanding** of multimodal media content that can be used to facilitate the **creation** of complex narratives.
- **03:****content creation** for immersive and interactive experiences.
- **04:**deliver immersive **experiences** that convey complex narratives, foster cultural participation and collaboration, and facilitate active **engagement**.
- **05:**vision to the **market** and impact to their target audiences.

UC2: TV Pilot Program

How can we produce TV programmes without a physical gallery in a personalised and role aware manner while repurposing live *content for multiple platforms and allow social XR interaction?*

**How can we showcase the possibilities of
Performance in Immersive Technologies?**

33

Use Case 3 | Performing Arts

Use Case 3 | Performing Arts

- Create **workflows** that performance companies can use
- Create a **showcase** that embodies the different technologies for different types of performance (theatre, dance, music, opera)
- Create **studies** about the current technologies and their pros/cons
 - Inform and impact the sector!
- Showcase how current performance practices can be upskilled to **immersive technology practices**

Use Case 4: Data-driven Immersive Storytelling Format for the Cultural Heritage Sector

**How can we democratise immersive storytelling for
cultural heritage organisations?**

Current Status

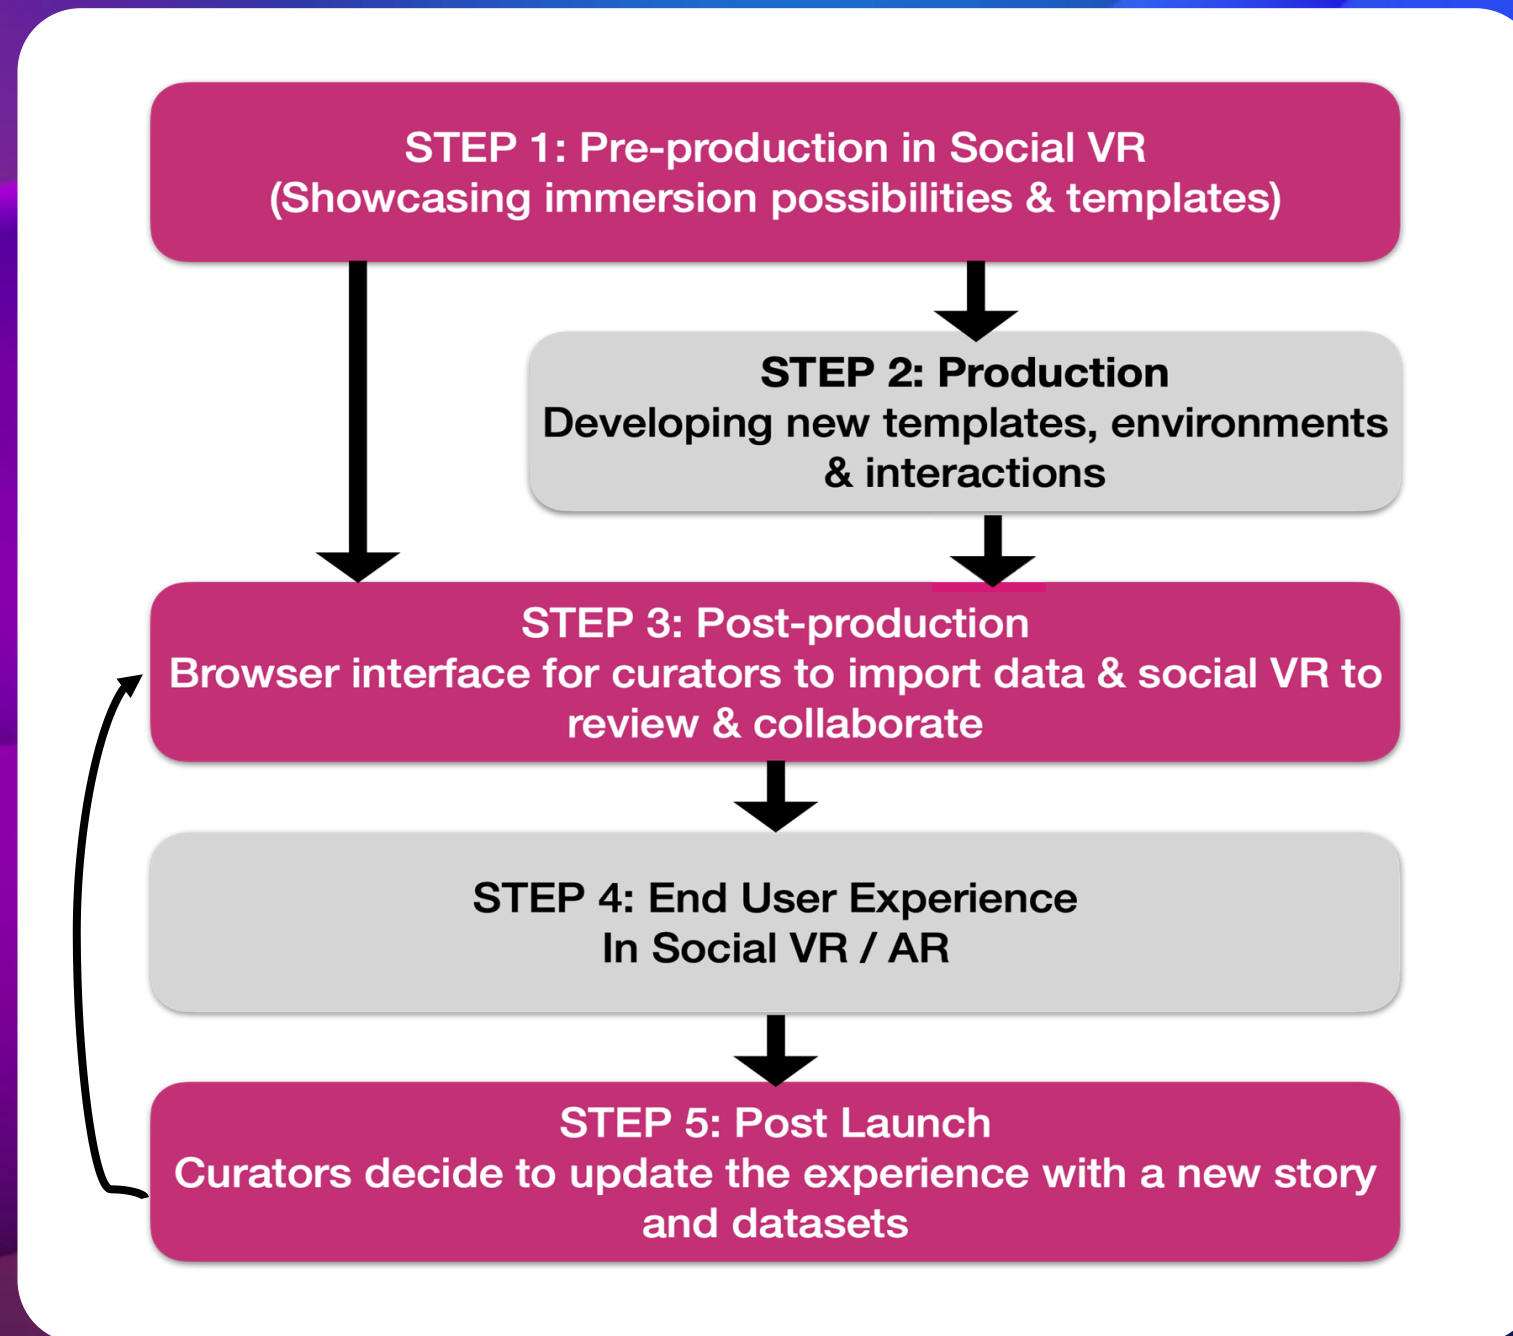

- Expensive one-off immersive installations
- Lack of high quality digital 3D objects
- Disconnect between design studios & heritage organisations

Desired Scenario

- Reusable immersive storytelling format & templates
- Storytelling with rich collection metadata
- Social XR facilitates collaboration on creative concepts

Need for innovation both in (i) storytelling formats and (ii) workflows to create these experiences

Social XR-powered workflow

Use Case 4 | Cultural Heritage

TRANSMIXR: collaborating with other projects

- Joint efforts with other EU project: XRECO, EMIL, MAX-R, HEAT, Presence, Revolution, 6G-XR
- Panel at FMX
- Stereopsia / IBC / Immersive Tech Week
- 2 workshops at ACM IMX conference: Video4IMX, ISIM
- General comms supports

Human centric incremental and iterative approach

TRANSMIXR: Next Steps

- Pilot implementation activities going full steam ahead
 - Iterative evaluation and refinement of (parts of) the pilots
- Showcases and capacity building & exploitation and collaborations beyond the project team
 - Good network developed (e.g. IBC) and we will bring the pilots to the key industry stakeholders.
- An eye towards transferability to other sectors!
